

Mercedes-Benz
190/190E

Special Equipment and Accessories

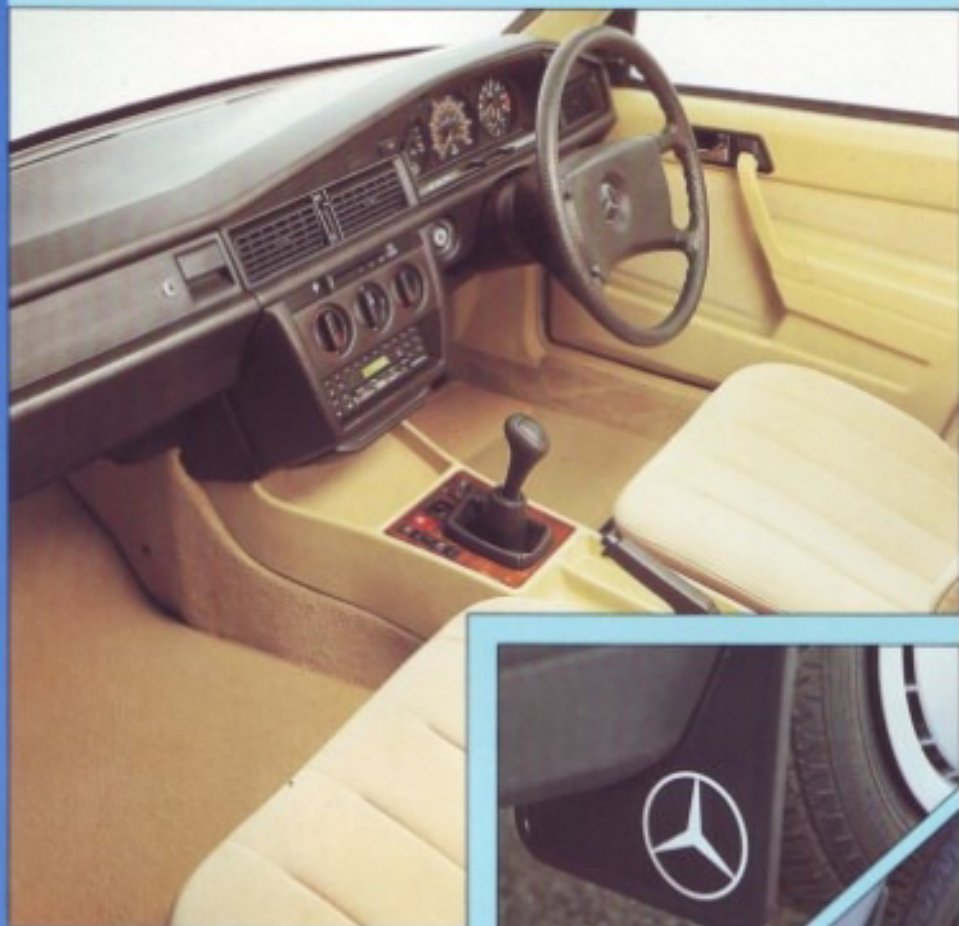

Mercedes-Benz cars are designed to provide the highest degree of comfort and safety. This brochure illustrates many of the items which may be fitted to the 190 and 190E either as original equipment or as after-sales additions.

Other items which are not exclusive to the new Mercedes-Benz 190/190E saloons can be found in the standard Mercedes-Benz Passenger Car Special Equipment and Accessory Brochure.

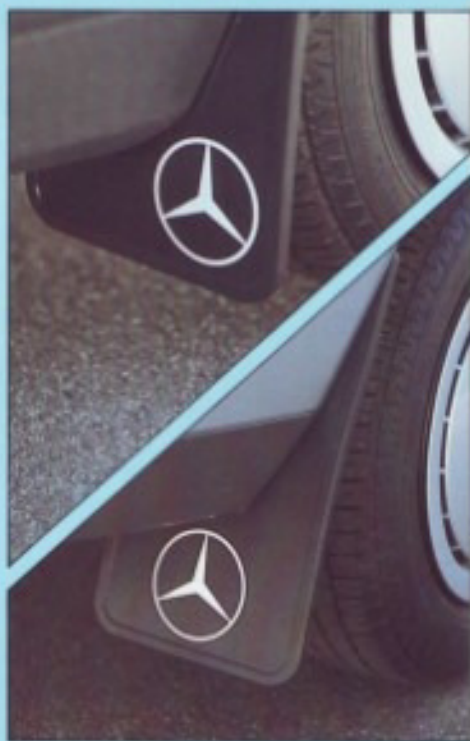

All the items selected conform rigidly to the exacting standards of Mercedes-Benz.

Tailored Well Carpets

A new design for the 190, made from special hard-wearing material woven to give a velour effect. These carpets are available in seven colours, for front and rear fitting.

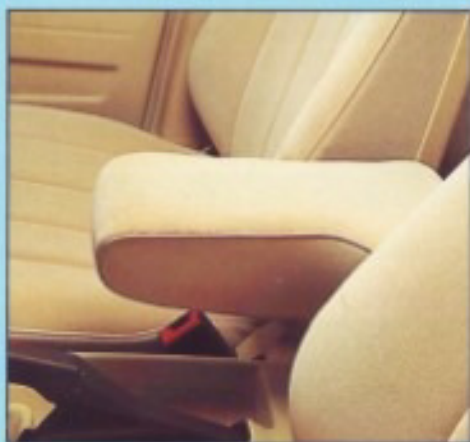

Rubber Well Mats

Tailored rubber mats, embossed with the Mercedes-Benz star, are available for the front and rear footwells.

Mudflaps

Heavy-duty rubber mudflaps, embossed with the Mercedes-Benz insignia, are available for front and rear wheel-arches.

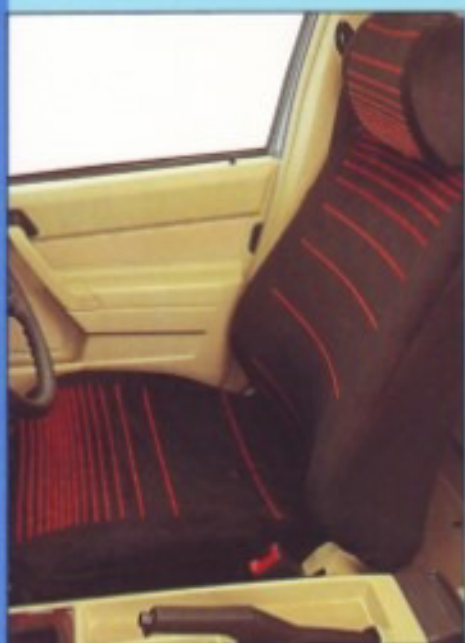

Armrest

Centre armrests can be supplied for fitting between the front seats, to match original specifications.

Roof Rack

Specially designed to fit the 190, the luggage rack attaches to two cross-rails.

Seat Covers

Specially designed for the 190. These tailor-made seat covers are manufactured from man-made fibres and provide protection for the original trim. A variety of colours are available.

Child Safety Equipment

All ages are catered for, whether for a baby up to 12 months old in a cot, or for a child weighing 20-40 lbs. There is also the child harness for the child from 3 years old and up to 140 cm tall.

Ski Containers/Ski Shoe Box

The ski container is designed to carry 4 pairs of downhill skis and 2 pairs of cross-country skis. The ski shoe box holds several pairs of boots.

Ski Rack

The lockable ski rack can hold up to 6 pairs of cross-country or downhill skis.

Surfboard/Sailboard Racks

Accessories are available to hold a variety of items securely including surfboards, sailboards and related equipment.

Boot Liner

This hard-wearing and easy to clean boot liner is specially moulded for the 190. It protects the interior trim when transporting items such as plants, sand or garden refuse.

Wind Deflector

Made from rigid, tinted plastic, this deflector can be fitted to cars with a sliding roof.

Alloy Wheels

Designed to Mercedes-Benz specification, these alloy wheels are of the highest quality and have met the most stringent performance tests.

Cassette Box

Specially designed to fit in the console between the front seats, behind the gear lever. Keeps cassettes free from dust and dirt. Release mechanism means cassettes are easily extracted.

Radios/Radio Cassettes

A comprehensive selection of radios and radio/cassette players with features ranging from mono to stereo radio, stereo cassette playback, lockable fast forward and rewind, facilities for changing tracks during play, digital fine tuning with Quartz tuning system and electronic FM interference suppression.

Units are 12v negative earth.

Speakers

A selection of standard and high-powered speakers for the 190 - together with all the necessary wiring kits and fader control.

Aerials

Manual, semi-automatic and fully-automatic aerials are available for fitting to the rear wing.

For details of the complete range of radios and accessories available, see our quality in-car entertainment brochure.
